

Itinerary for Visit to Calvin

Joseph Cho and Hanjin Lee, Handong University

2026-02-11

Draft Schedule

Some notes about the schedule:

1. This is a draft and subject to change. In particular, we are waiting for some input from Joseph Cho and Hangin Lee about their preferences.
2. Items in *italics* are options we can decide about.
3. Items that are ~~struck through~~ are also options, but I'm assuming they won't happen unless I get feedback to the contrary.
4. Items in **bold** are planned, but they can be removed or adjusted as desired.
5. Jim VanderMey is currently scheduled for Thursday mid-day. It is possible that might move to Tuesday. If so, we can swap some things between those two days.
6. Once we confirm a few more details I'll start the process of finding out who is available for various meals.
7. It would be good to get the details about Joseph's and Hanjin's presentations sorted soon so we can publicize them.

Friday, February 13

- Joseph Arrives at GRR (late evening), transport to Prince CC
 - Flight info:
 - Randy will pick up at airport

Saturday, February 14

- Hanjin arrives at GRR (22:47), transport to Prince CC
 - Delta Air Lines DL1711 from St Paul (MSP) 20:20 to Grand Rapids (GRR) 22:47

12:15 - 13:55	Visit Stat 245 (Appl. Data Analysis) or CS 384 (Perspectives)
14:05 - 15:00	2:00 Meet President Elzinga , then open/seminar prep
15:05 - 15:50	CS Seminar: Hanjin Lee <i>Values and Ethics in Mathematics in the age of AI</i>
17:00 - 18:30	Dinner at TBD with TBD
19:00 - 22:00	<i>Banff Film Festival Screening</i>

Wednesday, February 18

08:00 - 09:00	Breakfast at Prince CC
09:15 - 10:20	Visit PHIL 205 (Ethics)
10:30 - 10:50	Chapel: Why Believe that Jesus Suffered?
11:00 - 12:05	Stat 145 (Intro Biostats)
12:15 - 13:20	Data 304 (Visualization) lunch
13:30 - 14:35	Faith and Learning Cohort: Heidelberg Catechism and Faith Integration
14:45 - 15:50	
16:00 - 17:00	Faculty Seminar: Hanjin Lee <i>Ethics in Mathematics: how to teach it at Christian Universities?</i> As AI advances, the social practice of mathematics faces new ethical challenges. While more math and statistics students are entering the Big Data and AI sectors, they receive little ethical guidance in their formal education. Compared to the established professional ethics courses in engineering and science, mathematics and statistics departments lack similar curricula. This talk explores the ethical dimensions of mathematics and

recent scholarly proposals. I will also propose a course design for ethics in mathematics based on a Christian narrative ethics framework.

17:00 - 19:00 **Dinner** with members of Math/Stat/CS departments (Vos Endowment)

Thursday, February 19

08:00 - 09:00 Breakfast at Prince CC

09:30 - 10:15 **Discussion about Calculus Revisions** (Jocye Chew, Todd Kapitula, Mike Bolt)

10:20 - 12:00 Visit **CS 384 (Prespectives)** leave early for **lunch in dining hall** with TBD?

12:15 - 13:55 **Stat 245: Jim VanderMey** *Making the Invisible Visible: Ethics, Systems, and the Future We're Building* In a world increasingly shaped by data, design, and automation, the deepest ethical decisions are often the ones we never see — embedded in architecture, algorithms, and assumptions. In this keynote, Jim VanderMey draws on decades of real-world practice as a technologist and his formation in theology to explore how we can surface these hidden choices, provide ethical leadership in a pluralistic society, and anticipate the long-term consequences of what we build — before they are felt.

14:10 - 15:00 **Informal discussion with Jim VanderMey** (with refreshments) prep for colloquium

15:05 - 15:50 **Math/Stat Colloquium: Joseph Cho** *Geometry: mathematics you can see*

17:00 - 18:30 **Dinner** (with Jim VanderMey, Dave Klanderman, Randy Pruim); location TBD

Friday, February 20

08:00 - 09:00 **Breakfast** at Prince CC

09:15 - 10:20

10:30 - 10:50 **Chapel**

11:00 - 12:05

12:15 - 13:20 **lunch**

13:30 - 14:35
